Feeding-Inversion Elevator

The feeding-inversion elevator can be replaced by AU-series, it can deliver the materials from floor to up easier by arising the container, and it is small volume, easy to control and high Safety, even a woman can deal with the machine very easy, it also solves the problem by conveying the products to the higher place.

pulian
PARTNER FOR THE EXPERTS

可以替代人工倒料的昇降反轉機，完全實現了省力化，它透過容器的上昇，將原料從低處往高處送，不費力氣地完成工作，而且它的佔地面積小，操作簡單、安全性高，連女性都可任意操作，完全解決了搬運到高處的困擾

Feature

- (1) Convenient to dump material to high place by lift & reversal of structure.
- (2) Easy to operate, high safety, be laborsaving. Every operator can use.
- (3) Suitable for a place to avoid labor to contact material directly. Ex: Pharmacy, Wastes, High Pollution industry...etc.

特點

- (1) 利用升降、反轉機機構，方便將物料傾倒到高處。
- (2) 操作容易，安全性高，節省人力，作業員皆會使用。
- (3) 在防止人員直接碰觸的場所非常非常適合。例如：藥業、廢棄物業、高污染業…斗等場所之傾倒作業。

MODEL	機型	AU-1
Power	馬力(HP)	1
Speed	速度(m/min)	4~8
Loading Hight	投入高度(m)	1.4~1.8
Loading Degree	投入角度	135°
Machine Size	機械尺寸(mm)	1000x800x2320
Machine Weight	機械重量(kg)	210
Carrying Capacity	載重量(kg)	5~50
